DE 1 Wichtige Hinweise

- Die Auslegung des Montagesystems ist projektbezogen, entsprechend der vorgegeben Normen (DIN EN 1991-1-3/-4, Einwirkung auf Tragwerke - Allgemeine Einwirkungen - Schneelasten und Windlasten) durchzuführen.
- Voraussetzung für den bestimmungsgemäßen Einsatz ist immer ein geeigneter Untergrund, der die auftretenden Kräfte (Gewichtslast, Wind und Schneelast) aufnehmen kann.
- Die Montagevorschriften der Solarmodulhersteller sind einzuhalten.

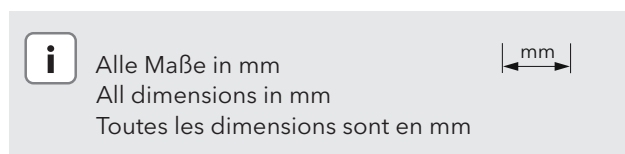

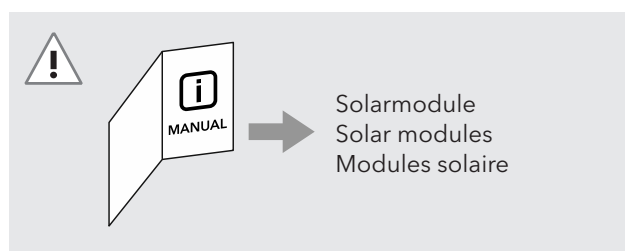

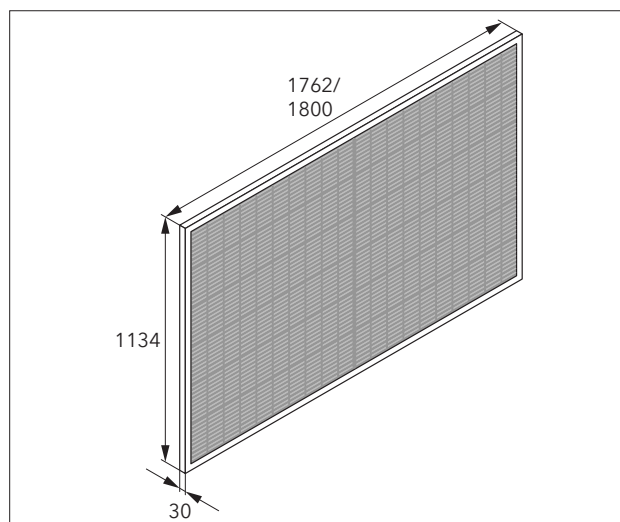

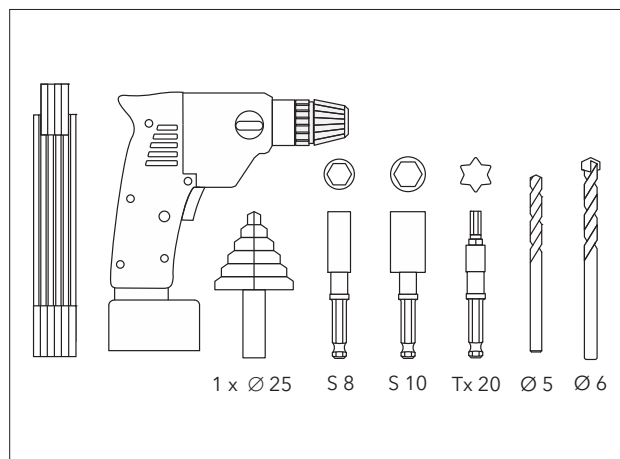

EN Important Notes

- The dimensioning of the mounting system should be specifically carried out for each individual project, following the effective norms and regulations (EN 1991-3 and EN 1991-1-4, snowloads and wind actions on structures).
- Prerequisite for the proper application always is a solid base that can accommodate the occurring forces (weight, wind and snow loads).
- The installation instructions of the solar module manufacturers must be adhered to.

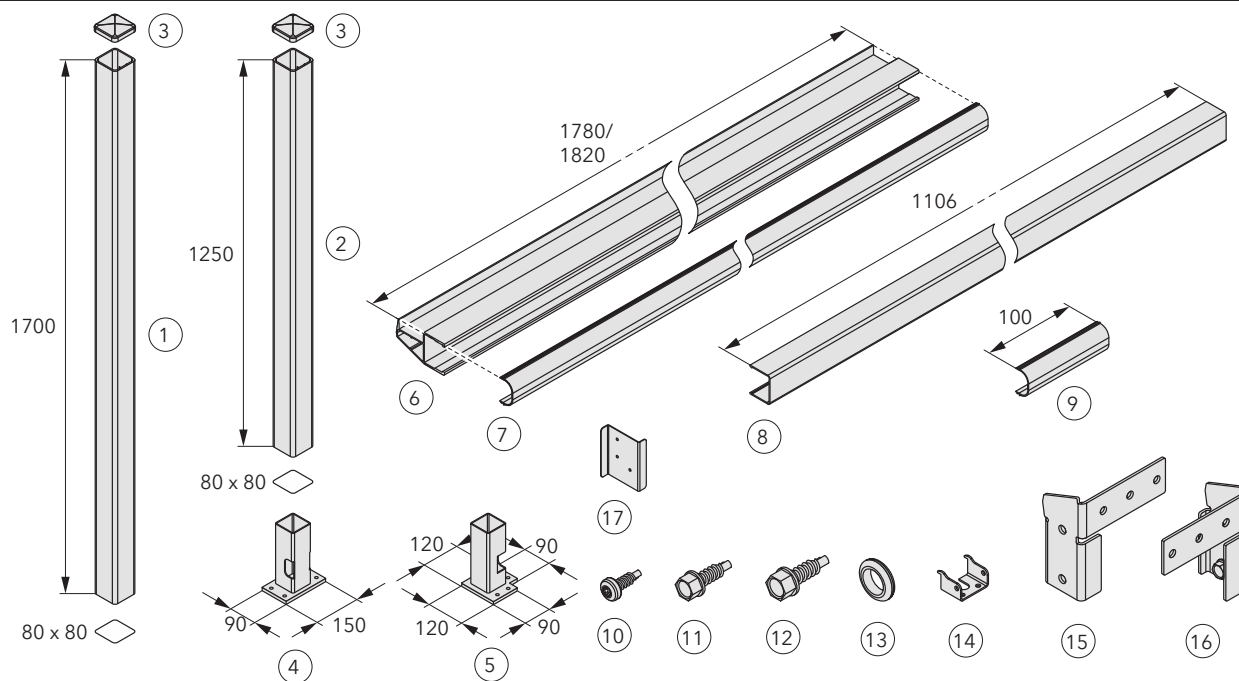

FR Notice importante

- Le dimensionnement du système de fixation doit être effectué en accord avec les normes européennes et leurs annexes nationales (EN 1991-1-3 et -4, actions du vent et de la neige sur les structures).
- Une structure de base appropriée pouvant résister aux efforts en présence (poids, vent et neige) représente la condition préalable.
- Respectez les instructions de montage du constructeur des modules solaires.
